Cyber Secrets: Approaches to cyberbullying

Understanding cyberbullying means keeping up with the ever changing youth culture and the rapid arrival of new devices, apps and message services. We need new approaches!

This workshop will

- Explore real life cases in new ways
- Explain what Ofsted will inspect regarding e-safety
- Examine policy and procedure your school needs in place.

By Adrienne Katz, CPD approved trainer and author of 'Cyberbullying and e-safety: what educators need to know'. Adrienne has collected the views of young people on cyberbullying and e-safety since 2008 and shares messages from this research plus her 15 years of practitioner experience. She is a co-director of BIG Award with a practical approach.

Girl bullying and Friendship Issues

Participants will :

- Look at how girls interact with each other
- Have a clearer understanding of the real difference between girls and boys, the characters, little Miss Popular, Minnie the Mixer and her friends...
- Understand the nature of girls' friendships and fall outs, Learn about relational aggression
- Explore girl groups and the dynamics
- Discover practical strategies to deal with girl bullying
- Discuss how cyber bullying affects girls' relationships
- Learn some useful advice on dealing with parents
- Practical Sessions - Mediation Techniques, Case Studies, Group Work

Offered by Val McFarlane and Vicki Lydon, Directors of Bullying Intervention Group, with many years of experience dealing with these issues in schools across the North East. Val and Vicki have also delivered this very popular workshop successfully around the UK for 5 years.
